Preamble

The International Association of Private Universities and Colleges (IAPUC) is a global, nonprofit membership organization registered in the State of Colorado, United States of America (Nonprofit Registration No. 20251179157). IAPUC is dedicated to advancing quality in private higher education through the establishment and promotion of the Internal Quality Assurance (IQA) accreditation system.

This document provides comprehensive guidance for private universities and colleges seeking to apply for institutional membership in IAPUC. It sets forth the eligibility requirements, application procedures, required documentation, evaluation criteria, and fee obligations applicable to institutions applying for Full Membership or Accredited Membership. The guidelines herein are designed to ensure a transparent, rigorous, and fair admission process that upholds the integrity and reputation of IAPUC and its membership.

These guidelines are consistent with the IAPUC Constitution, the IAPUC Membership Eligibility and Admission Standards, and the IAPUC Strategic Development Plan (2026–2031). All institutions are encouraged to review these foundational documents before commencing their application.

Chapter 1: General Provisions

Article 1: Purpose and Scope

1.1 These Guidelines serve to:

(a) Provide a clear and detailed roadmap for private universities and colleges applying for institutional membership in IAPUC;

- (b) Define the documentary requirements, evaluation criteria, and procedural steps for membership applications;
- (c) Ensure that all applicants are assessed consistently and fairly against the established standards;
- (d) Facilitate the efficient processing of applications by the IAPUC Secretariat and the Membership Credentials Committee.

1.2 These Guidelines apply to all private universities, private colleges, and private higher vocational education institutions that:

- (a) Are seeking Full Membership for the first time;
- (b) Are Associate Members seeking reclassification to Full Membership;
- (c) Are Full Members that have obtained IQA accreditation and are thereby automatically upgraded to Accredited Member status;
- (d) Are existing members seeking to renew or update their membership credentials.

Article 2: Interpretation

2.1 In these Guidelines, terms defined in the IAPUC Membership Eligibility and Admission Standards shall have the same meaning.

2.2 The term "institution" refers to private universities, private colleges, and private higher vocational education institutions.

2.3 The term "applicant" refers to the institution applying for membership.

Chapter 2: Membership Categories for Universities and Colleges

Article 3: Available Categories

Universities and colleges may apply for the following categories of institutional membership:

Category	Code	Description
Full Member	FM	Private universities and colleges that meet all eligibility criteria and have been formally admitted. Full Members are eligible to apply for IQA accreditation.

Accredited Member	AM	Full Members that have successfully completed the IQA accreditation process and hold a valid accreditation status (Provisional, Accredited, or Fully Accredited).
--------------------------	----	---

Article 4: Progression Pathway

The typical progression pathway for a university or college is as follows:

1. **Application for Full Membership** → Review and admission as Full Member
2. **Preparation for IQA Accreditation** → Self-evaluation, gap analysis, and improvement
3. **Application for IQA Accreditation** → Peer review, site visit, and accreditation decision
4. **Automatic Upgrade to Accredited Member** → Upon successful attainment of IQA accreditation

Associate Members (non-degree-granting institutions) that subsequently obtain degree-awarding authority may apply for reclassification to Full Member.

Chapter 3: Eligibility Requirements for Full Membership

Article 5: Mandatory Eligibility Criteria

An applicant for Full Membership must satisfy all of the following conditions:

The recommending member must confirm a substantive basis for its familiarity with the applicant institution—such as academic exchange, regional cooperation, or peer visits—rather than mere general awareness based on publicly available information. The recommender assumes no liability for the truthfulness of the application content.
